

Good Morning

Eric L. Young
Virginia Highlands Orff President

Process

- Invite students out into the moving space.
- Sing the song while students put the beat in their feet and move throughout the space.
- Ask students to count the number of times that you sing "Good Morning".
- Sing the song again.
- Ask students what the birds are doing.
- Teach the song by rote.
- While moving through space, students shake hands each time they pass one another.
- By the end of the song (A section), students should be with a partner.
- This becomes the A-Section.
- Hand Jive becomes the B Section.
- Teach Hand Jive by mirroring. Students should all be facing you.
- After the students are comfortable, move into partners.
